VOLUME XXI—NO. 100 CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, THURSDAY, JANUARY 6, 1921 TWO CENTS

BOROUGH COUNCIL ASKED TO PASS ON IMPORTANT QUESTION

Division of Motor Vehicle Fees to Be a Live Topic

TO BE DISCUSSED IN ASSEMBLY

A communication was received and read at the meeting of the borough council Tuesday evening, in which that body was asked to take affirmative action with reference to a proposed bill which is to be introduced in the Assembly at Harrisburg this winter and which many advocates hope will ultimately become a law of the commonwealth.

The subject matter of the letter was in reference to a division of the license fees which motor owners of all kinds are required to pay the state for the privilege of owning and operating a pleasure automobile or a traffic truck. In the year 1920 the amount of fees received by the state from this source alone aggregated over seven millions of dollars, truly a vast sum, all of which it is to be expended on the roads and highways of the state.

The law proposed and which will be presented to the Legislature at its present session will provide that the motor vehicle license fees be divided by the state with cities and boroughs, as it has been pointed out that cities and boroughs receive but little personal benefit from these fees because they are spent in sections of the state apart from municipalities. Representatives contend that cities are required to keep their streets in first-class repair at all times in order to permit the running of autos and trucks, but when it comes to benefitting in a financial way they do not receive a cent of the license fees imposed by the state. Every municipality is put to great expense every year in keeping up their streets, and this duty has been made doubly hard of recent years because of the extensive use of the automobile and traffic truck. Streets which were capable of bearing up for generations under horse and wagon traffic were soon knocked to pieces by the heavily-laden motor truck and in many cases streets had to be entirely reconstructed because of the heavy burdens they have had to bear.

Municipalities contend that as they are being put to a great expense because of the automobile, it is only fair that they should receive a part of the license fees collected by the State, this money to be devoted to the improvement and repair of streets.

Mayor W. A. Allen of Monongahela, in his address to the council of that city on Monday evening, touched on that phase of the situation, and recommended that favorable action be taken and that representatives from Washington county be urged to vote for such a measure when it is presented for action.

The question is going to receive a great deal of consideration this spring, and it is likely that the people "back home" will give an expression of their views to their representatives in the legislature on this important subject. It looks like a reasonable proposition and will appeal to the communities which have been put to extra expense by reason of the changes in traffic conditions.

HOME WEDDING WEDNESDAY NOON

Miss Phillis Murray of Charleroi, and Jack Bevens of Frostburg, Md., were united in marriage at the home of the bride's mother, Mrs. Robert Murray, at 12 o'clock noon Wednesday. The bride wore a suit of blue and carried a bouquet of American Beauty roses. After a short trip through the east Mr. and Mrs. Bevens will be a home to their friends at 433 Shady avenue.

PLEASANT MEETING OF MISSIONARY SOCIETY

The Women's Foreign Missionary Society of the Methodist church held its regular monthly meeting in the church Wednesday afternoon with a large attendance. The study for the afternoon was in charge of Mrs. Greenlee, who presented an excellent program. She gave in a very clear manner an idea of the history, geography and present-day conditions of India. A number of helpers gave interesting talks on the missionary work done in India by the Methodist church. The primary need of more help for India was dwelt upon.

A letter from Miss Rosetta Rodgers, who is doing missionary ork in Mexico, was read. Music was furnished by Mrs. Wright, Mrs. Ferman, and Mrs. Miller. Mrs. Wright had charge of the girls' trio, which was much enjoyed. A dainty lunch was served by the hostesses.

UNIONTOWN MAN DIES ON LOCAL PASSENGER TRAIN

Stricken by acute indigestion while riding on a passenger train on the Monongahela Division of the Pennsylvania, Wednesday morning, Darlington King, aged 66 years of Uniontown, lived but a few minutes, the lifeless body being removed from the train at Monongahela and taken to the morgue of Deputy Coroner L. M. Frye. At the time of his death Mr. King was on his way from Uniontown to McKeesport on a business trip. His death occurred while the train was running between Donora and Monongahela. The body was taken to Uniontown Wednesday afternoon.

CALLED TO SLIGHT FIRE EARLY THIS MORNING

The fire department was called out at 7:25 this morning, by a fire at the home of John Peach, 125 Fallowfield avenue. But little damage was done, because of the prompt response to the alarm.

Expansion Plans For The Chamber of Commerce

Formal announcement of the plans for the expansion of the Charleroi Chamber of Commerce has been made by the executive committee which has assumed the responsibility for the success of the movement.

In a letter signed by K. W. Daly, R. H. Rush and E. W. Hastings, which is being sent to citizens are these paragraphs:

"Decision to strengthen the organization is response to a definite need which has been felt for many months. Determination to reorganize in many essential points is calculated to make it more serviceable to Charleroi and its citizens, as well as the individual members.

"The Charleroi Chamber of Commerce is going to be a great big organization of the most modern type as to form and operation. Democracy and appeal to every member will be its outstanding characteristic. Service for all of the people of the Charleroi community all the time, will be the sum of its accomplishments.

"There is no need to recount the needs of Charleroi; you know what they are. You know, too, that only through united effort and action can we develop sentiment to the utmost and so speaking through one central agency, find or create that united leadership which will bring to us, within a reasonable period, those things we may never attain, acting singly.

"This is a serious effort to build along permanent and effective lines. With the hearty support of every citizen whose present and future are concerned with Charleroi, we can begin at once a new era of progress and prosperity."

BOLD ROBBERY ON M'KEAN AVENUE

A plate glass window in the front of I. Birken's jewelry store at 622 McKean avenue, was broken this morning about six o'clock, by some unknown party and a small quantity of jewelry taken.

At the time the window was broken a street car south bound was passing on McKean avenue, as well as a south bound passenger train on the Pennsylvania. A big motor truck, with its motor running, was also standing on the street immediately in front of the store, all of these incidents apparently helping the thief to get away with his loot. A fire brick was used in breaking the window and was left by the thief as he made his get away. The case is being rigidly investigated.

J. J. Oates and son were in Harrisburg this week, attending the opening of the Legislature.

Mrs. Angus Brine of Latrobe returned home today after a few days visit with Mrs. W. C. Walters.

Use the Classified Column.

CHARLEROI YOUNG MAN IS CITED FOR BRAVERY

Walter Fielding, brother of the Rev. and Mrs. G. D. Griffith, of Charleroi, has received word from King George and Sir G. D. Morant, K. C. B., through the British Royal Humane Society, the Honorary Testimonial for gallantly saving a child from drowning at Plymouth, England April 1, 1918. Mr. Fielding, fully dressed, dived off the pier into the sea and brought the child to safety. He himself was recovering from wounds received in France and double pneumonia.

OVER 300,000 MOTOR LICENSES ISSUE

More than 300,000 motor vehicle licenses of various types, pneumatic-tired pleasure cars, solid-tired trucks, motorcycles, tractors and trailers had been licensed for 1921 when the office of the state registrar closed after one o'clock Saturday morning. The run on the final day of 1920 broke all records, and the office force was busy all day Saturday trying to clear up the enormous accumulation of mail, due to eleventh hour demands for licenses.

RETRENCHMENT ON MONONGAHELA DIVISION

Quite a number of changes were made on the Monongahela Division of the Pennsylvania Railroad, beginning with the first of the year. A number of train dispatches on duty at various terminals were demoted for the time being and sent back to operating at the various towers along the Division, while the work of handling trains was consolidated to a few offices. Quite a reduction in working forces took place all along the Pennsylvania recently, caused by a falling off in traffic.

OHIO CONGRESSMAN TO SPEAK AT TURNER HALL MEETING TONIGHT

CHARLEROI WELTER WEIGHT DEFEATS SOHO'S PRIDE

Steve Carter, Charleroi's coming welterweight boxer, easily disposed of Bobby Williams, the Soho pride, in three rounds of fighting at the Motor Square Garden Club of Pittsburg, Saturday afternoon last. After closing Williams' eye in the first round he brought him to the floor with terrific body blows and finished him with a cross to the jaw and the referee counted him out.

ONE DEAD; SEVEN OVERCOME BY GAS

One man, Patrick Moran, is dead, two are in the hospital at Monongahela, while five others were taken to their homes, suffering slightly as the result of having been overcome by escaping gas while repairing a line for the Philadelphia Company, at Courtney, three miles north of Monongahela, on Wednesday afternoon.

The men were working in a hole eight feet square and nine feet deep. So little gas was escaping while a connection was being made that none of the men noticed its presence until several had collapsed and the others were too weak to give the alarm. William McKenna, and James Clark, superintendent of the South Side Division of the Philadelphia company, who were on the surface, pulled the other men from the hole. They inhaled so much gas that they, too, collapsed. Clark, along with a man named George Krause was taken to the Memorial Hospital, at Monongahela, while the others were taken to their home in Pittsburg.

COUNTY SEAT CONSIDERS CHANGE IN GOVERNMENT

The Chamber of Commerce of Washington is considering the merits of a government of a city of the third class, and is making a complete investigation of the subject. Questionnaires have been sent to a number of cities which were formerly boroughs, asking for information, and these replies, which were read at an informal meeting last Thursday evening, stated that third class city government was more efficient in every way than the borough form. The Chamber is continuing its investigations and it is likely some action will be recommended in reference to the matter.

ARMED FARMERS ARE STANDING GUARD

Armed with revolvers and shotguns, farmers residing in Perryopolis and surrounding district remained on guard during Monday and Tuesday nights, following a report that firebugs were about to resume operations in that section of Fayette county. No fires, occurred, however.

Delegation from Donora to Be Present to Hear Plans

NO MEMBERSHIP SOLICITATION

Members of the executive committee in charge of the expansion movement of the Charleroi Chamber of Commerce will occupy seats on the platform at the smoker this evening in Turner Hall, when Congressman James T. Begg of Ohio will make an address on civic-commercial organizations.

The members of the committee are: Kerfoot W. Daly, general chairman; R. H. Rush and E. W. Hastings, vice chairmen; Walter Byerly, chairman; Roy I. Carson, Louis P. Flickinger, Geo. W. Morrison, John B. Schafer, Harry W. Scott, Lee Srowers, H. L. Swickey and Jack M. Teitelbaum.

Headed by Thomas Gillan, superintendent of schools, a party of citizens of Donora, will attend the smoker. There has been considerable interest in Donora in the movement now on foot here for the expansion of the Chamber of Commerce, and word was received today that the party of men is coming up to Charleroi to obtain first hand information of what is being done. Inquiries have also been received from Woodlawn as to the movement.

The smoker will open at 8 o'clock and be dismissed about 9:30. It was learned today that the notices of the event did not reach all citizens of Charleroi and the committee hopes this will not keep any away. The invitation to attend is extended to all men. Though the purpose of the gathering is to present the Chamber of Commerce idea to the community, it is announced positively that there will be no membership solicitation this evening. In fact, there will be no attempt to enroll members until everyone in Charleroi has had ample opportunity to learn all about the movement and decide freely whether he thinks it is worth while.

In addition to Mr. Begg's talk there will be brief addresses by Mr. Daly, the general chairman who will preside and Thomas P. Sloan. Prof. I. T. Daniel will lead the singing. Indications are that Turner Hall will be filled to its capacity.

Notice

Charleroi Post No. 22, American Legion will meet in the Borough building, Friday evening, January 7th at 8 P. M. All members are requested to be present.

OUR PRIVILEGED CLASS

Democratic Greeks resident in this country deplore the efforts of a rich American woman to strengthen royalty in Greece and are unable to understand either her behavior or the indifferent attitude toward it on the part of the American public. "These American Greeks," writes Edith M. Thomas, who has friends among them, "have not hesitated in their recent Venizelist gatherings to express their minds as to the inconsistency of the former Mrs. Leeds (now the wife of Prince Christopher of Greece) in that, being born and bred in a great democracy, she should so easily metamorphese into an opponent of that idea, and become a special agent for the restoration of royalty deposed for its hostility to the principles for which her native country, with its Entente Allies, were recently fighting. These transplanted Hellenes ask with a pardonable irony of this is a sort of revision to ancient type in certain Americans, an atavistic adoration of the 'purple,' a longing for that which their own country can not give them in its abrogation of descended rank and titles. I can not answer these friends of mine and I have looked in vain for society's condemnation."

The answer is easy, however. Americans are indifferent to the doings of the former Mrs. Leeds because it is nothing new in the history of our past half century. The only approximation of "royalt" and "nobility" in American life is to be found among the women of our more prosperous families, whose men work for them, give them everything, and require only that they be charming. There came a time when the women of this class were not satisfied with the mere subetance of royalty; they wanted its external trappings as well and began to seek these beyond the bounds of the American democracy, trading wealth for titles, the higher the better. This explains the former Mrs. Leeds and the devotion of her money (which was piled up by the labor of American men) to the cause of Greek royalty. The behavior of our small privileged class (of rich women) is no indication of "inconsistency" on the part of the nation in general.

INTERMINABLE DISCUSSIONS

Secretary of the Treasury Houston says that a representative of the British government will reach this country soon to continue the discussions regarding the exchange into long-term bonds of the certificates of indebtedness of Great Britain now held in our Treasury, amounting to about $4,200,000,000. Those discussions began about eighteen months ago. The certificates contain a very definite promise to make the exchange when requested by the Secretary of the Treasury. Why interminable discussions are necessary is a mystery not yet disclosed by the Treasury. When it is realized that the exchange is the first step toward receiving interest on the foreign debt and making arrangements for its final payment, it is seen how important it is that they be concluded as speedily as possible.

HARVEY'S PLAN.

Col. George Harvey is sponsor for a peace plan that would "deny a Government the right to begin an aggressive war, save with and after the permissive vote of its people." He declares that had his plan been in effect heretofore "there would probably have been not one war in a hundred years." But has he stopped to reflect what would have been the probable outcome of theWorld War had it not been for the aggressive participation therein of Russia? Russia mobilized and threatened Austria and Germany solely because she was an ally of Serbia. She was not menaced in any way herself, and she prepared for a distinctly aggressive war. Had it not been for the detachment of a substantial part of the German army to protect her eastern frontier from Russia the outcome of the World War probably would have been far different.

UNCLE SAM NEEDS THE MONEY

United States Consular reports indicate that Belgium's exports are six times larger than a year ago, the exports of France are two and a half times larger than last year, and those of Great Britain and Italy have nearly doubled. Evidently the allies have "come back" from the devastation of war. Which reminds us that they owe the United States Treasury a debt of $10,000,000,000, the unpaid interest on which a mounts to over $700,000,000. Is it not about time to ask for an accounting?

The State Department has undertaken with the aid of torpedo boats and marines to prevent the Western Union Telegraph company from laying a cable from Miami, Fla., to South America, and the Western Union Telegraph company declares that nevertheless it will lay the cable. Perhaps the most remarkable feature of this amazing situation is the Western Union Telegraph company's prodigous opinion of itself.

The representatives of Canada, Australia and South Africa showed a very notable independence of British leadership in the assembly of the League of Nations, thus confirming the view that these great self-governing dominions were given separate membership in the League because they demanded it and not in order that England might direct the "six votes" about which we have heard so much.

The excessively high prices during the past two years were complained of by consumers, but it was a mere murmur compared with the noise now made by producers suffering from falling prices. The difference is that the producers are in a position cause politicians to sit up and take notice, while consumers have no organizations to defend their interests

Remember your dead. W. S. Cook and Co. Monuments with Lawrence Frye Funeral Director. 206tf

Hundred Species of Petrels.

Scattered over widespread areas of the ocean are more than 100 species of petrels, but among the most interesting are the fulmars. Sailors of British vessels commonly refer to them as "mollymawks," a corruption of mallemuck. The birds in great flocks follow in the wake of ships, and are especially fond of whaling vessels, for they like the substance that is thrown out in the refuse from whale cleaning. The fulmar ranges over the North Atlantic from 45 degrees latiture on the American side, and lower, to 53 degrees as the farthest south, on the European side.

Domestic Strategy.

He—Why do you say such hard things about Bridget to our callers? She's a treasure; the best cook we ever had. She—How little you men understand your wives' problems. If I told the truth about her those women would be falling over themselves in their efforts to get her away from us. —Boston Transcript.

The "Burning Tree."

The leaves and stems of the "burning tree" of India are covered with stringing hairs, after the manner of the common nettle, but are of a far more virulent nature. When touched the sensation felt is as of being burnt with red hot iron, the pain extending over other parts of the body and lasting several days.

The Spider as a Silk Maker.

Successful experiments have been recently made in the island of Madagascar with the use of spider's web in the place of the thread of the silk worm in the manufacture of silk. It is claimed that a fabric has been made from the spider's thread that is far superior in many respects to anything that has ever been devised.

Distributes Many Bibles.

During its existence of more than a century the British and Foreign Bible society has distributed approximately 25,000,000 copies of the Scriptures in more than 400 languages and dialects, the very names of some of which are unknown to many students of languages.

Her Threat.

The dissipated spendthrift of a husband begged for another chance. "Be patient, my dear," he said. "I am like the prodigal son; I shall reform by and by." "You'd better get at it or I will be like the prodigal, too," she warned him, "for I will arise and go to my father."

Your Eyebrows.

An eyebrow usually contains about three hundred hairs, and each eyelid is provided with about two hundred and ten lashes. The reason why an eyelash in the eye is so irritating is that, like other hairs, its surface is covered with minute scales.

Wonderful Searchlight.

Great fog penetrating power is claimed for a searchlight that has been invented in France with a greenish-yellow glass in front and backed by a reflector that also prevents moisture collecting on the glass.

Water Themselves.

Potted plants water themselves when placed on a new dish to hold water, in the center of the cover of which is an opening holding a sponge, through which the water rises into the holes in the flower pots.

No Carriage Needed.

A Moro woman carries her children on her shoulders, where they steady themselves by clutching her hair. This method of travel leaves the mother's hands free to carry other things.

In the Dark Hours.

Keep a clear conscience. Keep a good stock of God's promises within reach. Keep a nightingale of hope in your soul that can sing away the dark hours when they do come.—Cuyler.

Goose Eggs Best.

Geese lay the best eggs, from the point of view of nourishment. Then come ducks and guinea fowl. Hens are fourth on the list, with turkeys and plovers following.

Drug Taking and Criminality.

More than 50 per cent of those addicted to drugs have criminal histories. This is proved by the records of the department of correction, New York city.

Common Fault.

"There is one thing which proves plainly King Charles I of England was not the man for the place." "What was that?" "He lost his head at the critical moment."

Registering Thermometer.

For industries where temperature records are of value an inventor has devised a registering thermometer that can be connected to and operated by an alarm clock.

The One Absorbing Topic.

The reason some people don't talk more than they do is that they can't think of anything else to say about themselves.—Boston Transcript.

Daylight Is the Time.

Lying awake nights will not crack a single one of life's hard butternuts. You have to keep pounding as long as daylight lasts.

Caste in China.

In China an inferior upon horseback, meeting a superior, dismounts and waits until the other has passed.

Here's Your Chance!

We are now organizing our sales force to sell building or drilling sites in REEDVILLE, seven miles from Washington, Pa., 3½ miles from Canonsburg and 26 miles from Pittsburgh, on the B. & O. R. R. and Chartiers & Southern R. R. (now under construction) the most logical location for a town in this much congested section. Lots from $150.00 to $180.00 on easy payments, $25.00 down and $25.00 per month. Sold free of all incumbrances and every purchaser, in addition to getting a deed for his property, will receive FREE without further liability or interest in Three Wells, which we will drill on this tract located in the heart of the PROVEN OIL and GAS FIELDS OF PENNSYLVANIA.

Our SALESMEN are going to make money. No experience necessary. A Postal will bring full particulars.

FRICK GARDENS WORTH VERY VALUABLE

Garden produce estimated to be worth $362,000 was raised during 1920 by employes of the H. C. Frick Coke company, according to official figures just made available. This represents an average of $6 per garden by the Frick employes and is perhaps about two-thirds of the total value of garden produce raised at coal and coke plants in the Fayette county field. Estimates from independent plants are not available.

BASKET BALL SEASON OPENS FRIDAY EVENING

The Charleroi High School basket ball team will go to Canonsburg tomorrow afternoon, where, in the evening they will meet the Canonsburg High in the open game of the interscholastic basket ball season. A close and exciting game is expected.

RESUMES OPERATION AT REDUCED SCALE

The Superior Steel Corporation of Pittsburg an independent company employing about 1200 men, mostly skilled, on Monday announced that the plan would resume operations on Wednesday in some departments on a scale with about 15 per cent lower wages paid than when the works shut down.

DR. TEMPLE NAMED ON IMPORTANT COMMITTEE

Speaker Gillett on Tuesday appointed D. H. W. Hemple of the Twenty-fourth district, as a member of the joint congressional committee which will recommend the reorganization of government departments under the recently passed Smoot-Reavis resolution.

SUNDAY SCHOOL GIVES LARGE CONTRIBUTION

The Sunday school of the Second Presbyterian church of Uniontown, in its offering toward the relief of Belgium, Syria and the Near East, contributed the sume of $7,096.97.

FUNERAL SERVICES AT NINE O'CLOCK

Funeral services for Mrs. Matilda Gobrecht will be held Friday morning at nine o'clock, with Requiem High Mass at St. Jerome's church.

Notice to the Public

The Charleroi Taxicab Co., has installed in their service closed cars for weddings and christenings, and also short and long trips. Any time, any place, anywhere. The Old Reliable, 24 hour service. Call Bell Phone 549-W. 180-t3

A Chinese Custom.

In China, at dinners and theatrical performances, it is customary to provide guests or spectators with hot towels saturated with scented water for wiping their faces.

Italian Superstition.

One of the numerous superstitions of the Italian peasantry is that rows of teeth hung around the necks of little children will assist them in teething.

A Bedouin Marriage.

A Bedouin marriage does not take much time. The bridegroom kills a sheep and spills the blood on the sand of his father-in-law's threshold and the wedding is over.

Important Consideration.

When naming young son, parents should insure his future happiness by selecting initials that will make a pretty monogram.

Penalty of Conceit.

Lots of failures can be traced to the belief that other people are not quite so smart as we are.—New Haven Register.

Bastions Invented by Italians.

Bastions were invented by the Italian engineers of the sixteenth century to prevent the enemy from collecting in the ditch round a fortified town.

Paradoxical.

"There is a contradictory sort of advertisement in the paper of this big business firm." "What is it?" "It is a summary of their winter stock."

Safety Gloves.

Safety gloves for machinists, have been invented, made of chrome leather and sewed with steel wire so that they will not rip.

WANTED—A young man for store work, one who would be interested in learning business. Bright future. Apply F. W. Woolworth Co. 179-t3

CLERKS—(Men, women) over 17; for Postal Mail Service. $130 month. Examinations January. Experience unnecessary. For full particulars, write B. Terry, (former Civil Service Examiner) 901 Continental Building, Washington, D. C. 178-t3p

Time Governed by Moons.

Among the various designations of months by means instead of numbers, January is called "the Hard Moon," February "the Raccoon Moon," March "Sore-Eye Moon," April "the Moon in Which Geese Lay Eggs," May "the Planting Moon," June "the Moon When the Strawberries Are Red," July "the Moon When the Cherries Are Ripe," August "the Harvest Moon," September "the Moon When Rice Is Laid Up to Dry," October "the Rice Drying Moon," and December "the Deer Moon."

Food From Many Lands.

A miscellaneous line of food products may be encountered among the stores of the foreign quarters of a great city like New York. There are the black ripened eggs of the Orient. There are sausages little and sausages large, stuffed with oat breadstuff by the Scotch, with butter, lard and whatnot by the Italians. There are the sun-dried devil-fish from Greece, fourinch spreading figs from Izmir, the jumbo walnuts of Chile and Manchuria—so on and so forth.

Seat of the Trouble.

Herbert often complained about the peculiar disposition of his small cousin, with whom he could not get along well. After a recent disagreement he came into the house out of patience and exclaimed: "Well, mother, James and I might just as well quit trying to be friends if he is my cousin. We just can't agree. He's too full of human nature."

A Cold Snap in Siberia.

In some parts of Siberia most of the food sold in shops is in a frozen state, milk being sold in long sticks and meat hacked with axes. The men walk around with beards caked with ice, and women incased wholly in wool so far. No children are to be seen in the streets, the cold is so intense.

Oldest Botanical Work.

The oldest botanical work in the world is in the palace or temple of Karna Kat Thebes, in Egypt. It is sculptured on the walls and represents foreign plants brought to Egypt by the sovereign Thothmes III. after a campaign in Arabia. It shows the plant, flowers, bud and fruit.

Leaning Tower of Westminster.

A curious thing is happening to the massive tower of Westminster cathedral, a landmark for miles, which is leaning. It is three feet out of the perpendicular, but does not look an eighth of an inch out from any viewpoint.—London Times.

Demonstrated.

"Flattery," says the effete philosopher, "is a species of eyewash which we use on our next-door neighbor. But, of course, he never tries it on us; he tells us he has too high an opinion of our judgment to do that!"—London Answers.

Experienced Printer.

"Our new company is capitalized at $50,000,000." "Great! Let me see your prospectus." "Oh, we haven't got out a prospectus yet. The confounded printer wants his pay in advance."—Boston Transcript.

Victor Over Misfortune.

Happy is the man who can endure the highest and the lowest fortune. He who has endured such vicissitudes with equanimity has deprived misfortune of its power.—Seneca.

New Propeller.

A propeller invented by a Massachusetts man for motorboats has a single blade that oscillates like a fish's tail or the motion of an oar in sculling.

Stay to Progress.

The world will never progress as fast as it might along Christian lines, as long as our own headache is more important to us than a neighbor's loss of his farm.

Bad Economy.

To save money by going without necessities is bad economy, but to waste anything lessens your wealth, the wealth of your country, and the wealth of the world.

To test the acoustic properties of a hall, the lecturer proposed counting the number of seconds the clapping of the hands could be heard; if five or six seconds, the hall is unfit for public speaking, for which it must be reduced to two or three seconds, but for musical purposes a little longer may be allowed. Draping the hall is the best way to reduce the reverberation, belief in the efficacy of stretched wires being a mere relic of superstition.

Surgeon's Job.

Collectors of customs, being constantly on the watch for [illegible], have certain demands which they repeat almost unconsciously. Not long ago a tourist came ashore with a badly swollen cheek. "What have you there?" asked the custom officer, pointing to the swelling. "An abscess, sir," was the reply. "Well," said the officer, impatiently, "open it, please."

Civics Explained.

Mrs. Prudence, says "Buschcomber," in the Daily Express, was very proud of the strides they were doing at the smart private school to which she had sent her daughter. "She does," she said to her friend, "she's learning civics—it's very pleasant—[illegible]." "Civics?" asked the friend. "Civics! My dear, don't you know? Why, it's the science of interfering in public affairs."

COAL TESTS MADE BY COUNTY OFFICIAL

The office of Sealer of Weights and Measures has proven its worth in many ways to the people of Washington county. Since the creation of the office in Washington county a greater degree of confidence between dealer and buyer has been established, as the official duties of the dealer require him to see to it that standard weights and measures are used, and the adoption of these devices works to the interest both of those who sell and those who make purchases.

During the eleven months in which John F. Curran of Washington, has held the position, he has made 3,412 tests and has covered a large part of the county, although there yet remains some districts to be covered. The test made included dry and liquid measures used by purveyors of foodstuffs, etc., mine and platform scales, public weight scales and so on. He found it necessary to condemn many dry measures that were in use and to suggest that scales be taken out of commission. In every instance these suggestions were complied with. In his investigations Mr. Curran found that in numerous instances the scales were registering in favor of the consumer rather than the merchant. As the law requires an adjustment of all scales that do not weigh correctly he placed these in condition to register the precise number of ounces placed upon them.

BJYS BIG BLOCK OF VIRGIN COAL

approximately 2,000 acres, and located in Amwell and Morris townships, this county, has been purchased by the Pittsburg Coal company, the price being about $300 per acre, or about $600,000 for the block. This big tract has been held intact by the original owners for more than 15 years, being one of the largest in Washington county not having changed hands in that period. It is not likely the tract will be developed for some time, unless a standard gauge railroad should be constructed in the vicinity of that coal field.

WEST VIRGINIA MILLS ON FULL TIME MONDAY

The Interwoven Mills, Inc., at Martinsburg, W. Va., employing 1,300 men and women, was scheduled to reopen on full time the first of the week, after three weeks idleness. This announcement was made on Saturday last by company officials, who said that continuance of work on full time schedule depended upon developments in the industry. A 20 per cent wage cut announced ten days ago, was placed in effect.

ORTHODOX CHRISTMAS CELEBRATED TOMORROW

The Orthodox Christmas, celebrated by the Russian, Greek and Syrian churches, will be celebrated tomorrow, Friday, January 7th. High Mass will be held in the Orthodox churches at 11 o'clock a. m. Saturday will be celegrated at Easter and Sunday as the Day of Pentecost. A feature of the celebration will be what are known as the "Bethlehem Boys" who parade during the day in fantastic costumes.

FLOBERT RIFLES ARE DANGEROUS WEAPONS

Clyde Barr, son of Frank Barr of Fayette City, had his left eye badly injured one day last week as he was delivering papers. A boy with a flobert rifle fired in the direction of the newsboy and the ball took effect in the left eye, the ball later being extracted from the lower lid. The boy may lose the sight of the eye. As an aftermath of this shooting the Burgess of the borough has prohibited the use of all flobert rifles in the town.

CHARLEROI MITT ARTIST TO TAKE PART IN [illegible]

Charleroi will have a representative in the tri-state amateur championship boxing tournament to be held on Friday and Saturday, January 21 and 22, in the gymnasium of the Pittsburg Athletic Association. Coldy Dollarco, of the H. T. A. C. has been in his entry for the [illegible] pound class.

WHOLE WORLD CRAVES MUSIC

Longing for Sweet Sounds Would Seem to Indicate That the Nations Are Recovering.

That nations are individuals in miniature has been proven so often that it has long ago become a truism; but perhaps it has never been indicated more effectively than in the present attitude of the nations of war-shattered Europe toward music. From England, France, Belgium and Italy, not less than from Germany, Austria and even Russia, comes the same story through the mouths of trustworthy observers returning to this country, as well as through other news channels. "Europe is mad for music," they all say. "No other words will describe the craving that has seized these countries for all its forms." There are tragedies which at their cruelest take from the individual all solace, not to mention any delight, in the loveliest of arts. "I shall hate sweet music my whole life long," wrote Swinburne in the bitterness of disillusionment, and happy is that human being who has not at least once in his life touched the supreme height of agony when to hear music is an unbearable thing. But as with man so with countries in which disillusionment, far worse than bereavement, has yet followed close on its footsteps. One of the first signs of an ability to take up life once more in healthy human fashion, is a returning willingness, even a longing, for the joys of music. And when the flower of charity blooms once more in the soul laid waste by hatred, music is not far off, in races as in individuals.—Montreal Herald.

WON LOVE OF POPULACE

But First Bullfight Must Have Been Trying to Nerves of Young Queen of Spain.

When Queen Victoria of Spain was married to Alphonso one of the features of the wedding festivities was a bullfight. The bullfight to Spain is far more important than the baseball game of the United States is to its citizens, and the very life and soul of the people is woven into its traditions. The queen, a pretty, young, protected English girl whose viewpoint of life was the same as other young girls of the higher classes of England, was privately informed that not only must she attend the fight, but under no circumstances must she exhibit fear or disgust.

The fight was staged with the utmost magnificence and was opened by the entry of two fiery black bulls. The first bull killed a horse or two before it was put to death. The second bull was then driven about, tortured and abused, and finally lured directly in front of the royal box, where a poor old decrepit horse, blindfolded and drugged until it was hardly able to stand, was left. The bull, stabbed with a spear, charged the horse, driving its horns again and again into the wretched beast until it fell, a mass of horror, to the ground. The queen did not change color or flinch, although she must have been sick to the point of fainting. The populace greeted her calm with cheers.

Valuable Airplane Device.

Of all the inventions conceived during the last decade, in the hope of decreasing the landing speed of airplanes, none has promised more in preliminary tests than a device recently evolved by the United States bureau of standards, says Popular Mechanics Magazine. It is nothing more than a simple, variable-camber rib, which is used instead of the ordinary rib, in the construction of one plane of a biplane, or of the top and bottom planes of a triplane. One peculiarity of construction is that the nose of this flexible rig is fixed to the front spar, while the tailpiece is rigid and slides on the rear spar. Another peculiarity is that the rib structure between the spars is normally symmetrical, or uncambered, but is deformed by nonsymmetrical air pressure until it becomes a rib of most pronounced camber.

The first carload of American-grown dasheens, introduced into this country to supplement the potato, arrived on the New York market recently, and because of the limited quantities shipped and the demand they sold as high as 15 cents a pound. The dasheens were grown on the east coast of Florida.

The Trinidad dasheen, which is a particularly fine variety of the taro, is one of 46,000 foreign plants introduced into the United States by the Department of Agriculture. It was brought here in the belief that it would yield the South a tuber crop which could be used to supplement the potato. It contains 50 per cent more protein than the potato, according to the Department of Agriculture.

His Mission Wasted.

An Irishman made his way to a country jail and asked to be allowed to see the governor.

On being ushered into that functionary's presence he begged for the favor of an interview with a prisoner who was to suffer the extreme penalty of the law in the course of the morning.

"No, my man," said the governor, "you cannot see the prisoner. He's to be executed in half an hour, and visitors are not permitted to see a prisoner on the day of execution. But what might be your business with him?"

"Shure, sor," answered Pat, "it's his birthday, and I was after wishing him many happy returns."

Not Quite Up To It

You Feel That Way If Your Blood Is Starved For Red Cells

Pepto-Mangan Makes Red Blood

Overcomes That Languid Feeling That Cheats You Out of Work and Fun

You say, "I wish I could go, but I don't feel able." Your friends say, "Are you ill?"

You are not exactly sick, you just feel unable to approach work or play in the old, vigorous spirit.

The high speed at which Americans live sometimes taxes their strength. The blood is weak, lacking in red cells. When this condition exists, Gude's Pepto-Mangan taken three times a day shows quick benefits. Pepto-Mangan is known to physicians as The Red Blood Builder. It increases the supply of rich, healthy blood and in the absence of deep-seated disease this means health and strength for men, or women or children.

Pepto-Mangan is put up in both liquid and tablet form. Both forms are exactly alike in medicinal qualities. When you order Pepto-Mangan, be sure to ask the druggist for "Gude's." And look for the name, "Gude's" on he package. If "Gude's" is not there it is not Pepto-Mangan. Advt.

NO EXTENSION FOR MOTOR VEHICLE LICENSES

The State Highway Department has announced that it does not contemplate extension of time in which automobile licenses. At this time it will be illegal to operate a motor vehicle without 1921 license plates. A large number of machines have not yet been equipped with license plates, and it remains to be seen what action the Department will take with reference thereto.

T. P. Sloan and daughters Mary and Gertrude and son Thomas, Jr., are visiting at the home of his mother at Granville, near California.
